RE: Formal Withdrawal of Charter School Approvals

Dear Ms. Gaskill,

Please accept this letter as formal written confirmation that our organization is withdrawing its intent to move forward with the charter awards previously approved by Education One at Trine University.

As we discussed last spring, we have made the organizational decision not to proceed to contract execution or implementation for the following proposed schools:

| Proposed School Name | Opening Year | Type | Geographic Community |
|-------------------------------------|--------------|-------------|-----------------------------|
| Purdue Polytechnic High School West | 2023 | Replication | Indianapolis Public Schools |
| Purdue Polytechnic High School 5 | TBD | Replication | TBD |
| Purdue Polytechnic High School 6 | TBD | Replication | TBD |
| Purdue Polytechnic High School 7 | TBD | Replication | TBD |
| Purdue Polytechnic High School 8 | TBD | Replication | TBD |

We understand that because a charter agreement was never executed, this notification allows Education One to formally close these files and ensure your records accurately reflect that these approvals will not result in active school contracts.

We appreciate the partnership and support Education One provided throughout the application process. Thank you for your assistance in ensuring our records are aligned.

Sincerely,

A handwritten signature in black ink that reads 'Keeanna Warren'.

Keeanna Warren, PhD
Chief Executive Officer
Purdue Polytechnic High Schools
